DETAILED ACTION

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 7-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, "said applicator device" lack antecedent basis.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-8, 10-15 and 17 are rejected under 35 U.S.C. 102(b) as being anticipated by Dillarstone (3,451,593). Dillarstone discloses, in figs. 6 and 7, a mixing and dispensing device comprising a first pressurized container 1 having a first valve 17 and containing a first composition; a second pressurized container 2 having a second valve 27 and containing a second composition, actuator means 60 for actuating the valves to allow the expulsion of said first and second compositions from their respective containers into a flow pathway comprising mixing means 59 for mixing said first and second compositions into a mixed product; and dispensing means 53 for dispensing

Art Unit: 3754

said mixed product, said dispensing means being in fluid communication with said flow pathway; wherein said first valve and second valve are positioned facing each other; the containers are held in position by a body component 73; wherein said mixing means comprises a mixing chamber 54 having a static mixer 59; wherein the actuator means is a toggle system 60.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims ¹⁶~~16~~ and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dillarstone in view of Morane et al. (3,698,453) or Wiegner et al. (5,588,626).

Dillarstone does not disclose the dispensing device for mixing hair dye compositions.

Hair dye compositions are mixed in dispensing device, which is well known in the art, for example Morane et al., or Wiegner et al. teach a mixing and dispensing device for mixing and dispensing hair dye compositions.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the first and second compositions in the Dillarstone invention with hair dye compositions, as taught by Morane or Wiegner, in order to facilitate of mixing and dispensing dye composition.
